- **Our Project:**

RefuToken has been designed to be a deflationary token that rewards you with tokens simply for holding. Transactions have a 3% charity tax fee which is divided into 1% auto adding to liquidity and 1% for charity and to hold us alive in this project. Holders are rewarded 1% of every buy or sell will be rewarded to holders in REFU.

We decided to make RefuToken as a long-term solution to support the refugees in the world, and the poor people, they suffer from disasters.

- **RefuTokens, what are they?**

RefuToken is BNP-20 Token built on BNB Blockchain. The maximum supply is 100M Tokens, which will be 50% the supply available to trade or hold, and 50% to charity.

- **Why should you invest in RefuToken**

With RefuToken you can invest in cryptocurrency, hold the tokens for long term invest or trad. Both ways you can make profit and help refugees, victims of famine, poverty, and wars. For every transaction you make donation just 2%. When you support and believe in our project, you make profit and something good for the world.

- **Reward**

Holders are rewarded 1% of every buy or sell will be rewarded to holders in REFU.

- **Our Goal**

Monthly donation for refugees, victims of famine, poverty, and wars. After the donation we will post a prof for it in our social media pages and in our web page, that you see the donation goes to the hopeless people to give them better life and support them against disasters.
